

Living Gaia e.V.

annual report 2019

02.01.2019

Interview and article in the [taz](#)

Alexandra and [Txana Bane](#) responded to the election results in Brazil: Together we support our friends of the indigenous Huni Kuin tribe and raise funds to help them secure land ownership, independent of the current government.

04.03.2019

The first milestone of 50.000 Euros

We were pleased about the positive response and first financial support from the Berlin environment and friends of the Huni Kuin.

24.04.2019

Dia dos Indios – ALL EYES ON THE AMAZON

Together with Greenpeace and other environmentalists, we gathered in front of the Brazilian embassy [to send a clear message](#): We show solidarity with the threatened peoples of the Amazon and call for the protection of the rainforest.

18.06.2019

Living Gaia e.V. with Batani & Bunke @ Ecosia

The two Huni Kuin women reported at Ecosia their situation under Bolsonaro. Alexandra made it clear how we can support them from Germany and how important the forest and its inhabitants are for us here too, because:

[Sustainable climate protection means protecting the indigenous peoples!](#)

20.07.2019

The Encontro camp @ Living Gaia, Brazil

Together with the Huni Kuin women we travelled to Brazil to the Chapada dos Veadeiros for the [III Encontro](#) on Living Gaia - a meeting place for different cultures and traditions.

A week with a colourful group in beautiful nature: we left our usual comfort zone, grew beyond ourselves and had profound, [transforming experiences](#).

Pearls & visitors

Alexandra traveled with the Huni Kuin and 2 participants of the Encontro in the Amazon to Jordão, Acre. Dada had organized many beads for the women, which they could now take home to make new jewelry. This enables them to support themselves and their families in the long term.

Implementation of the solar project in Novo Natal

Bixku, a young Huni Kuin man, then travelled together with Alexandra to Living Gaia, where he received an introduction to the handling of solar technology from Maurício from São Jorge.

With solar panels and voltage converters, cables and bulbs in his luggage, he returned to his home village Novo Natal, located on the Rio Jordão, and [was now able to supply his entire village with solar power.](#)

Dia do Fogo

In Brazil, fires were set in many places in the Amazon on the night of the 11th August. The forest was on fire - the horror images did not spread around the world until many days later, when Sao Paulo was enveloped in dark clouds of smoke. In the following weeks the fires developed into a serious environmental disaster with unforeseeable consequences.

It's a „Living Gaia Estonia”

Reelika, an Estonian friend of the Huni Kuin, has been collecting for our land purchase project with several large charity events since May. Now she founded the association "[Living Gaia Estonia](#)".

We made it to [Plan A](#)

The first data-driven action platform against climate change has been launched by our land purchase project. Plan A helps companies on their way to sustainability and, among other things, helps us collect donations.

New flyer and info material

We received professional support in designing [new, informative flyers](#) and now re-designing our website.

In addition, we are now creating an information package to make it even easier for you to become active:

equipped with presentation, roll-up, flyers and posters, as well as FAQ's
We are looking forward to your support!

Current amount of donations: 93.511,36 €

We have collected the first 90.000 Euros!

We would like to thank you donors, all the benefit organizers and supporters. Now it's time to roll up your sleeves and implement new ideas!
